Our school has some money to spend!
Shall we spend it on the sports hall or the library?
Please share your views here.

Text A

Kwame, student captain of the basketball team

I think that the money should be spent on improving the sports hall. A sports hall should provide a safe and comfortable place for students to take part in physical activities. But our current sports hall doesn't have air conditioning and the roof leaks, putting students at risk of illness and injury.

Lots of studies have shown that regular exercise is excellent for students' mental health and their ability to study, so having a better sports hall to exercise in would be good for all our students, not just the sporty ones!

At the moment, the sports hall is quite small. If we use the money to make it bigger, we'll be able to host lots of exciting sports competitions and events. This would mean our school would be better known by other schools, which would improve our reputation.

Finally, if we had a better sports hall, it could be used by local people as well, giving them a place to stay active by doing things like badminton and yoga. This would help improve the school's relationship with the whole community.

So we should definitely use the money to improve the sports hall because it would have lots of benefits for everyone.

Text B

Miss Akello, teacher

School libraries are important places for students and teachers. They give access to all kinds of materials and provide lots of information in the form of books, magazines, videos, and more. While our current library has these materials, a lot of them are old and using the money to update them would mean everyone could have access to the latest information.

Also, school libraries help students develop research skills. Spending some of the money on updating the IT facilities in the library would help students improve these skills. We could put in a digital catalogue and more computers connected to the internet. Doing this would also give students the chance to find new interests and to enjoy learning things beyond what they're taught in class.

If we used the money to improve the library, we could put on events such as book clubs and author visits which our students would love. We could also invite local people to come to these which would improve links with the community. I know several local writers who'd be willing to give a talk!

In all these ways, improving the school library would make learning better for everyone. This is why I believe it would be the best use of the school's money.

Reasons.

5 points

5 points

- 1 - Point
- 2 - Reward
- 3 - TWE → stance/side
- 4 - Develop
- 5 - Evaluate.

Question 1

Your school has recently received some money to spend on improving either the sports hall or the library. You have read some of the opinions posted on the school noticeboard. Your principal has asked you to write a report giving your views.

Write a **report** for your school principal.

In your report you should:

- evaluate the ideas and opinions in **both** texts
- give your own views about whether the money should be spent on improving the sports hall or the library, based on what you have read in the texts.

Base your report on what you have read in **both** texts but be careful to use your own words.

Address both of the bullet points.

Begin your report with 'To: The Principal'. Remember to give your name and a date.

Write about **250 to 350** words.

Up to 10 marks are available for the content of your answer and up to 15 marks for the quality of your writing. [25]

Section B: Composition

Answer **one** question.Write about **350 to 450** words on **one** of the following questions.Up to **10** marks are available for the content and structure of your answer and up to **15** marks for the style and accuracy of your writing.**EITHER****Descriptive writing**

- 2 Describe a town or city centre at a busy time of day. [25]

OR**Descriptive writing**

- 3 Describe the scene at two competitions, one which takes place outdoors **and** one which takes place indoors. [25]

OR**Narrative writing**

- 4 Write a story about someone who decides to give up something important to help a friend. [25]

OR**Narrative writing**

- 5 Write a story which includes the words: 'He turned the corner and was pleasantly surprised by what happened next.' [25]

→ der
→ ew
→ furcht

Sports hall vs Library:

Best way.

(A') = 25/25

- ① Rhetorical Question in intro evaluation
- ② PDE using own evaluations

- ③ para 3: 1 PDE + 2/3 developed

④ Tentwise evaluation + Final stance

⑤ Praise + Thank you

Easy way:

(22/25)

- ① Memorized intro
- ② PDE twice — at least one evaluation on your own
- ③ para 3: All developed.
- ④ Only give final stance.
- ⑤ Only thank you

To: The Principal

Date: 22nd, April, 2026

A report about the school's renovation project

Pre-a

Is it a wise decision to spend the school treasury on something that can be replaced by a Google Search? Drawing upon student perspectives and prevailing trends, this report will examine the correct use of school funds.

Perceived benefits of the library

Upgrading the library will provide every student with up-to-date resources **in tandem with** equipping them with necessary expertise on relevant topics. This will aid them in the long-term with their grades and careers. Yet it cannot be disavowed all this information is already available for free on the internet. Furthermore, some people assert that a library will allow students to broaden their horizons by hosting unique academic events. For instance: the Karachi Literature Festival at Credo School had two thousand participants who were exposed to new branches of learning. However, we must consider that the younger generation is considerably more interested in recreational events like sports.

Merits of the sports hall

That being said, it is undeniable that physical activity can amplify a pupil's academics and wellbeing. Research proves that students are able to concentrate more after engaging in sports. Although we cannot refute that major students only end up getting distracted by extracurriculars. Moreover, a larger hall would let the school host competitions and events and boost the school's reputation in the entire region. This would allow the pupils to explore opportunities in the sporting field, for instance: representing the school on different platforms. A student from the senior batch reports, "I am now aiming to apply to MIT in the hopes of the sports scholarship."

Final Evaluation:

When all these aforementioned points coalesce that people who advocate for the sports hall are pupils in the school themselves, so they understand the situation better. They also follow a more communal approach — backed by statistics. Hence, siding with them, I recommend allocating the funds to the sports hall.

Conclusion:

This report has achieved its aim to inform, influence and illuminate. I express my gratitude to you and entrust you — as more well versed on the matter — to act on these findings judiciously.

Rule of Three

REPORT WRITING

What is a Report?

A **report** is a formal document written for a specific purpose and audience. Unlike articles, which aim to engage or entertain, reports are written to **inform**, **explain**, or **evaluate**. They are typically based on facts, observations, or research findings, and often end with a conclusion or recommendations.

Key Features of a Report:

1. **Formal tone** – clear, concise, and objective.
2. **Factual content** – based on data, examples, or evidence.
3. **Subheadings** – used to organise different sections clearly.
4. **Logical structure** – usually includes an introduction, body paragraphs (under subheadings), and a conclusion.
5. **Recommendations** (optional) – may be given at the end, depending on the purpose of the report.

Report Format:

To: [Name of the intended reader] (*if applicable*)

This is included when the report is directed to a specific person, e.g. a principal or council member.

Title of Report:

Report titles should be **factual and straightforward**—not catchy or dramatic like article headlines.

Example: *A Report into Young People's Use of Computer Technology*

PAGE 1A: UNIVERSAL BODY — QUICK REFERENCE

PARA 2 — Side You DISAGREE With:

- Point 1 (reworded + shortened)
- Point 2 (reworded + shortened)
- Develop Points 1 & 2
- Evaluate Points 1 & 2
- Point 3 (reworded + shortened)
- Point 4 (reworded + shortened)
- Develop Points 3 & 4
- Evaluate Points 3 & 4

PARA 3 — Side You AGREE With:

- Point 1 (reworded + shortened) — >PDE
 - Point 2 (reworded + shortened) — develop
 - Point 3 (reworded + shortened) — develop
 - Point 4 (reworded + shortened) — develop
- Handwritten notes: } either 2 or 3 developed*

PARA 4 — Text-wise Evaluation + Final Stance:

- Text-wise evaluation 1 (pick from the 7 criteria)
- Text-wise evaluation 2
- Text-wise evaluation 3 (minimum)
- Rule of Three
- Final stance (one clear sentence)

Handwritten note: Which side do you want?

THE 7 TEXT-WISE EVALUATION CRITERIA:

1. **Idealistic vs Realistic** → Realistic = Stronger
2. **Age & Experience** → Older = Stronger (BUT if topic is about a specific group, belonging to that group = Stronger)
3. **Short-term vs Long-term** → Long-term = Stronger
4. **Bias** → Unbiased = Stronger
5. **Use of Statistics** → Evidence-backed = Stronger
6. **Individual vs Communal** → Communal = Stronger
7. **Omission of a Point** → If a text ignores something obvious, it is weaker

PAGE 4: REPORT FORMAT

To: [As given — e.g. The Principal] **Date:** [Any date]

Heading — TWO OPTIONS:

Option A: A report about [topic]

Option B: An assessment of [topic]: findings and recommendations

Subheading 1: Introduction

Paragraph 1 (~35 words):

As per [Title]'s instruction, this report aims to examine whether [state the core issue]; drawing upon student perspectives and prevailing trends, the subsequent findings evaluate both approaches in order to determine the most beneficial course of action.

Subheading 2: [e.g. 'Perceived Benefits of...']

Paragraph 2 — PDE Format:

- Same universal body
- ONE statistics development (e.g. "Studies consistently show that...")
- ONE quotation for development (made up)
- Formal transition words throughout

2 points + d + e
2 points + d + e

Subheading 3: [e.g. 'Merits of...']

Paragraph 3 — Side You Agree With:

- Same universal body
- Long-term future idea (e.g. "This approach secures a future where...")
- Formal transition words throughout

2 PDF
2 / 3 developed

Subheading 4: Final Comments

Paragraph 4 — Text-wise Evaluation:

- Same universal body
- Rule of Three

• Final recommendation "I recommend..."

= Final stance is mandatory!

Subheading 5: Conclusion

Paragraph 5 (~35 words):

Any individual who has persevered thus far deserves my utmost gratitude; this report has achieved its aim to inform and illuminate, and it now entrusts you — as someone more well-versed on this matter — to act on these findings judiciously.

Reported by: [Your Name]

5 THINGS EVERY REPORT NEEDS:

- ✓ Formal transition words (However, Furthermore, Moreover, On the contrary, Therefore, Thus, Hence, Consequently, Nevertheless, In addition)
- ✓ ONE statistics development
- ✓ Heading

Developments:

Agreeing

- ① Result (Benefit) ✓

Travelling is educational.

some candidates developed ideas in a more thoughtful, thorough and personal manner: 'You can learn more about mountains and the different traditional festivals that take place around the world as I did when I visited the Kalash valley at the time of the Uchal festival.' '[The long summer break is] a time to relax. You can distance yourself from your busy life. Therefore by visiting places like mountains you can recharge your brain which allows you to be focused in university.'

- ② Example (Name) = Name of a place/person

Linguistically, 'For instance' and 'For example' were often good signal phrases preceding development.

- ③ Personal Experience

It makes you independent } ✓

which allows you to be focused in university.'

anecdote from the candidate's own travels: 'When I went abroad without my parents, it helped me to become mature and venture out of my comfort zone.... I became more independent and build my confidence.'

'Whenever I recall my school life I only remember one thing – joyful memories with my mates. We travelled in the country visiting places we only learn about in geography lesson.' Candidates also developed points

- ④ Statistics logical

2005.

- The response could have included exemplification of the reduction in animals' lifespans with an additional sentence such as, 'Studies have shown that animals living in the wild live, on average, five years longer than those in captivity'. If slightly fewer ideas had been selected but these had each been developed and evaluated, this would have improved the response.

restrained/restricted.

-- Research shows that
-- 30% of the people...

facts and figures.

- ⑤ Alternative // Solutions: ✓

S25 / uniforms.

Another way in which candidates could demonstrate development was by offering solutions to some of the issues raised in the two texts, e.g., by agreeing that school uniform should be worn and then suggesting that there could be regular non-uniform days as a compromise.

↳ 2

↳ 3

Mobile phones

Evaluations :

o- Tone

o- Rhetorical questions

- The response could have included greater development of the ideas selected. For example, suggestions around what specifically could have been learnt about different animals, e.g. 'an opportunity to see different animals and learn about their diet, characteristics and habits', or by providing an example of how a visit to the zoo appeals to all ages, e.g. 'Zoos are the best means of an enjoyable family outing with no age threshold; on our family's recent visit to the zoo, both my 80-year-old grandfather and my five-year-old sister were equally delighted at being able to see so many non-native animals up close'.
- The response could have included exemplification of the reduction in animals' lifespans with an additional sentence such as, 'Studies have shown that animals living in the wild live, on average, five years longer than those in captivity'. If slightly fewer ideas had been selected but these had each been developed and evaluated, this would have improved the response.

o- Points (Result).

Many responses included at least some evaluation, often signalled by phrases such as 'In my opinion...', 'However...', 'You cannot ignore...', or rhetorical questions, e.g. 'Travel might be fun, but at what cost?'. Stronger responses integrated evaluation throughout, weighing the merits of each argument rather than reserving judgement for a concluding paragraph: 'It is true that travel teaches life skills, but important skills can also be gained through work experience. Some people argue that travelling is expensive, but it is worth every penny if it gives you experiences you'll never forget.' Other successful attempts at evaluation included weighing financial constraints, considering long-term benefits, challenging assumptions, e.g. 'Who in their right mind would want to work in their summer break?' or providing evaluation in the form of prioritising a single idea already mentioned in support of the final judgement: 'Of all the benefits of travelling, the most important is definitely making memories with the friends that you won't see as often once you start university.'

o- Text-wise Evaluation

as Jianyu points out.' Another valid approach to evaluation took the form of signalling potential bias in the ideas of the two writers, e.g. pointing out that Hazeema was younger and so might be less mature than Jianyu and so less likely to see the importance of homework.

PDE Format :-

- Evaluation of the ideas selected was required to achieve a mark at Level 4 or above. Candidates needed to ensure that they included this alongside development. For example, candidates could have added an example or information additional to an idea already in the text, and then offered a judgement on the quality or validity of that idea. Using the PDE (Point Development Evaluation) structure would have helped candidates to provide all the required elements. For example, the idea of the zoo being a fun family outing for all ages could be developed and evaluated as follows: 'A visit to the zoo appeals to both children and adults, as they can explore exhibits, attend interactive shows, and enjoy outdoor activities together. However, the ethical concerns regarding animal welfare in zoos are paramount.'

It's a family outing for all ages.

Candidates should be encouraged to avoid repeating points from given texts but rather to interpret and expand on these points with personal insights and original thought. Approaching the question using a clear structure (for example: Point, Development, Evaluation) will support candidates in achieving this. Development of points (extracted from the texts) could be enhanced by including examples from wider reading on, or personal experience of, societal issues.

- Where possible, candidates are encouraged to link points from the two texts and use one to help evaluate the other. An example of this, using the ideas of gaining scientific knowledge (from Text A) and behavioural changes in animals (from Text B), would be as follows: 'Zoos allow researchers to observe animal behaviour without the unpredictable variables present in their natural habitat, such as predation and weather. This setting allows for detailed, long-term research on social interactions, reproduction, and development. However, behaviours in captivity may differ from those in natural habitats due to stress and confinement, raising concerns about the validity of findings'.

Point + dev + ev

Many responses featured creditworthy evaluation, for example, 'Using a mobile phone provides crucial safety for students by allowing instant communication in emergencies, so rather than banning mobile phones, perhaps it would be better to only allow their use at certain times of the day, for example on the journey to and from school when students are more likely to be at risk.' or 'The high cost of mobile phones undoubtedly causes jealousy among students when they don't have the latest model and making sure their children always have the most up to date phone can place financial strain on families.' In the first example, we have evaluation of the idea that mobile phones provide safety, with the use of 'crucial' being a signal that this is evaluative. The development provided here is a solution which supports the evaluation by mentioning that permitting the use of mobile phones on the way to and from school would offer security in emergency situations. The second example picks up on the Text B idea of envy, judging that there is validity in this idea with the use of 'undoubtedly'. The development here comes with the effect of the expense on families.

Sample Essay:

THE VOLCANO

- ① Conflict: School fair → volcano / baking soda
② Character: Sarah and I → responsible / double check / nervous / care too much
③ Ending: clumsy / messed up / reckless
④ Starting:

Jaweria Amer

Char ✓ Sarah and I sat over our kitchen table the evening before the science fair, surrounded by paper mâché scraps, streaks of red paint, and the smell of far too much glue. I was ticking things off my notebook one by one as we finished them. Our volcano stood in the middle of the table — *tilted* lopsided, magnificent, and completely ours. Sarah tilted her head at it like a proud artist. "It's going to be lava-ly," she said. I laughed, though a small worry settled somewhere in my chest and refused to move.

Setting ✓ Something about the volcano seemed off. It was clear that time was running out, so we had to try something different. **[INSERT TOPIC SENTENCE HERE]** But the hour was late, so I closed my notebook and left one important thing unchecked. I told myself it was fine. It was not fine.

The next morning, the exhibition hall buzzed with energy. Students were adjusting wires, fixing posters, and practising their speeches in urgent whispers. I knew I had to overcome my fear if I was going to win. **[INSERT TOPIC SENTENCE HERE]** Sarah arrived breathless and grinning, and together we gave the volcano its final polish — buffing the sides, straightening the display board, repositioning the flask until it sat at exactly the right angle. We even bragged to the group next to us, who smiled back with the polite confidence of people who had measured their baking soda correctly. Our project had never looked better.

The judges worked their way down the row. When they reached us, I handed the lead judge — a tall woman with perfect white sleeves — the flask of vinegar. She raised it over the crater. At that exact moment, Sarah grabbed my arm and whispered four words that froze my blood. "I added too much." Before I could say anything, the vinegar hit the baking soda. A loud hiss tore through the hall. Red foam exploded from the crater, shot into the air, and splattered across the table, the display board, and the judge's perfect white sleeves. The crowd gasped — then burst into laughter. **[INSERT TOPIC SENTENCE HERE]**

I stood frozen, clutching the empty flask, my face burning the same colour as the lava still crawling across the table. I was two seconds away from losing my temper completely. But then I looked at Sarah — and I remembered that our friendship mattered more than any prize. The judge wrote something on her clipboard. We did not win. We were nowhere near winning. But as the foam finally slowed, Sarah looked at me across the wreckage with the most guilt I had ever seen on anyone's face. "Well," I said, patting her on the shoulder. "At least it did erupt."

↓
The new words that left Sarah's mouth were not anticipated...

"It's going to be lovely," she said.

She exclaimed, "It's going to happen!"

"I added too much on purpose."

Read **both** texts and answer **Question 1**.

Our school has some money to spend!
Shall we spend it on the sports hall or the library?
Please share your views here.

Text A
Kwame, student captain of the basketball team

I think that the money should be spent on improving the sports hall. A sports hall should provide a safe and comfortable place for students to take part in physical activities. But our current sports hall doesn't have air conditioning and the roof leaks, putting students at risk of illness and injury.

Lots of studies have shown that regular exercise is excellent for students' mental health and their ability to study, so having a better sports hall to exercise in would be good for all our students, not just the sporty ones!

At the moment, the sports hall is quite small. If we use the money to make it bigger, we'll be able to host lots of exciting sports competitions and events. This would mean our school would be better known by other schools, which would improve our reputation.

Finally, if we had a better sports hall, it could be used by local people as well, giving them a place to stay active by doing things like badminton and yoga. This would help improve the school's relationship with the whole community.

So we should definitely use the money to improve the sports hall because it would have lots of benefits for everyone.

Text B
Miss Akello, teacher

School libraries are important places for students and teachers. They give access to all kinds of materials and provide lots of information in the form of books, magazines, videos, and more. While our current library has these materials, a lot of them are old and using the money to update them would mean everyone could have access to the latest information.

Also, school libraries help students develop research skills. Spending some of the money on updating the IT facilities in the library would help students improve these skills. We could put in a digital catalogue and more computers connected to the internet. Doing this would also give students the chance to find new interests and to enjoy learning things beyond what they're taught in class.

If we used the money to improve the library, we could put on events such as book clubs and author visits which our students would love. We could also invite local people to come to these which would improve links with the community. I know several local writers who'd be willing to give a talk!

In all these ways, improving the school library would make learning better for everyone. This is why I believe it would be the best use of the school's money.

Question 1

Your school has recently received some money to spend on improving either the sports hall or the library. You have read some of the opinions posted on the school noticeboard. Your principal has asked you to write a report, giving your views.

Write a **report** for your school principal.

In your report you should:

- evaluate the ideas and opinions in **both** texts
- give your own views about whether the money should be spent on improving the sports hall or the library, based on what you have read in the texts.

Base your report on what you have read in **both** texts but be careful to use your own words.

Address both of the bullet points.

Begin your report with 'To: The Principal'. Remember to give your name and a date.

Write about **250 to 350** words.

Up to 10 marks are available for the content of your answer and up to 15 marks for the quality of your writing.

[25]

1	Your school has recently received some money to spend on improving either the sports hall or the library. You have read some of the opinions posted on the school noticeboard. Your principal has asked you to write a report, giving your views. Write a report for your school principal. In your report you should: • evaluate the ideas and opinions in both texts • give your own views about whether the money should be spent on improving the sports hall or the library, based on what you have read in the texts. Base your report on what you have read in both texts but be careful to use your own words. Address both of the bullet points. Begin your report with 'To: The Principal'.
